

Baptist Health Foundation
of San Antonio

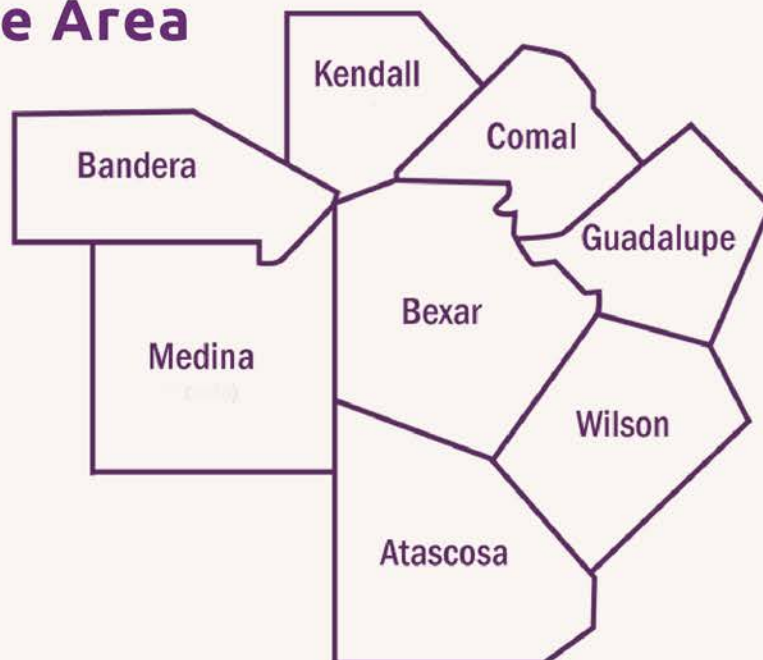

Annual Report

2022

Mission

Baptist Health Foundation of San Antonio is committed to honoring God and our Baptist heritage by fostering and funding health initiatives in our community.

Our Eight County Service Area

President's Report

**SO WE DO NOT LOSE HEART. THOUGH OUR OUTER SELF IS
WASTING AWAY, OUR INNER SELF IS BEING RENEWED DAY BY DAY.
2 CORINTHIANS 4:16**

A messenger of hope is always welcomed. The Bible says that even the feet of a messenger bringing good news are beautiful.

In 2022, BHFSa sought to be a messenger of hope, showing the community we serve that, although outward things may fall apart, each day we can be filled anew with purpose, passion, and love of Christ.

At BHFSa, we rely on this daily renewal to carry us forward.

South Texas faces hardship in many ways, and there are days when it is hard to see past our troubles.

Ultimately, however, we have hope in our hearts that the goodness of God will overcome the difficulties we face.

This year, BHFSa was able to give away more grant funds than ever before, which we did in Jesus Christ's name. We could not be more grateful for the blessings we've been given, and we continue to stay vigilant in our stewardship of God's money.

We count ourselves blessed to be able to partner with such incredible organizations in the community we serve. Together, we hope to bring renewal to our whole community.

In 2022, BHFSa awarded \$9,409,200 in grants. These grants were given with prayerful consideration to nonprofit organizations in Atascosa, Bandera, Bexar, Comal, Guadalupe, Kendall, Medina, and Wilson counties, to improve the health and lives of our neighbors.

Disaster Relief Grants (\$91,000) were given to organizations working to relieve disaster-related suffering, including a canteen truck that fed response teams in Uvalde.

Scholarship Grants (\$1,693,200) were given to local higher education institutions. These grants fund scholarships for students in health-related fields. The past few years have demonstrated how greatly society relies on healthcare workers, and BHFSa is honored to assist in the education of the next generation.

Responsive Grants (\$5,150,000) were awarded to 54 area nonprofits. These are large organizations, many of which have been working in San Antonio or the surrounding areas for decades. BHFSa is honored to support such vital fixtures in our community.

Community Impact Grants (\$275,000) were given to 32 smaller organizations in our service area. These organizations often work with a specific sub-community, brought together either by region, demographic or medical concern, and bring a localized expertise to their work.

Strategic to Mission Grants (\$2,200,000) were given to 3 organizations to further their goals of improving mental health in children and teens. A fourth grant was given to the Fellowship of Christian Athletes to improve spiritual health in teens.

Baptist Health Foundation of San Antonio celebrated all of these grants in December at an Awards Ceremony at First Baptist Church of San Antonio.

2022 brought yet another round of unexpected challenges, but as Paul the Apostle states in 2 Corinthians, our hope is in the Lord and his daily renewal of our spirits.

Spirit of Health Award Recipient

REBECCA TAYLOR, FOUNDER OF REBECCA'S WISH

Rebecca Taylor was seven years old when she was diagnosed with chronic pancreatitis, a condition considered rare in children.

Over the following years, she had 100 surgeries and spent almost 2,000 days in the hospital. Pancreatitis causes unrelenting abdominal pain and Rebecca's has cost her seven and a half digestive organs, many of them before her teen years.

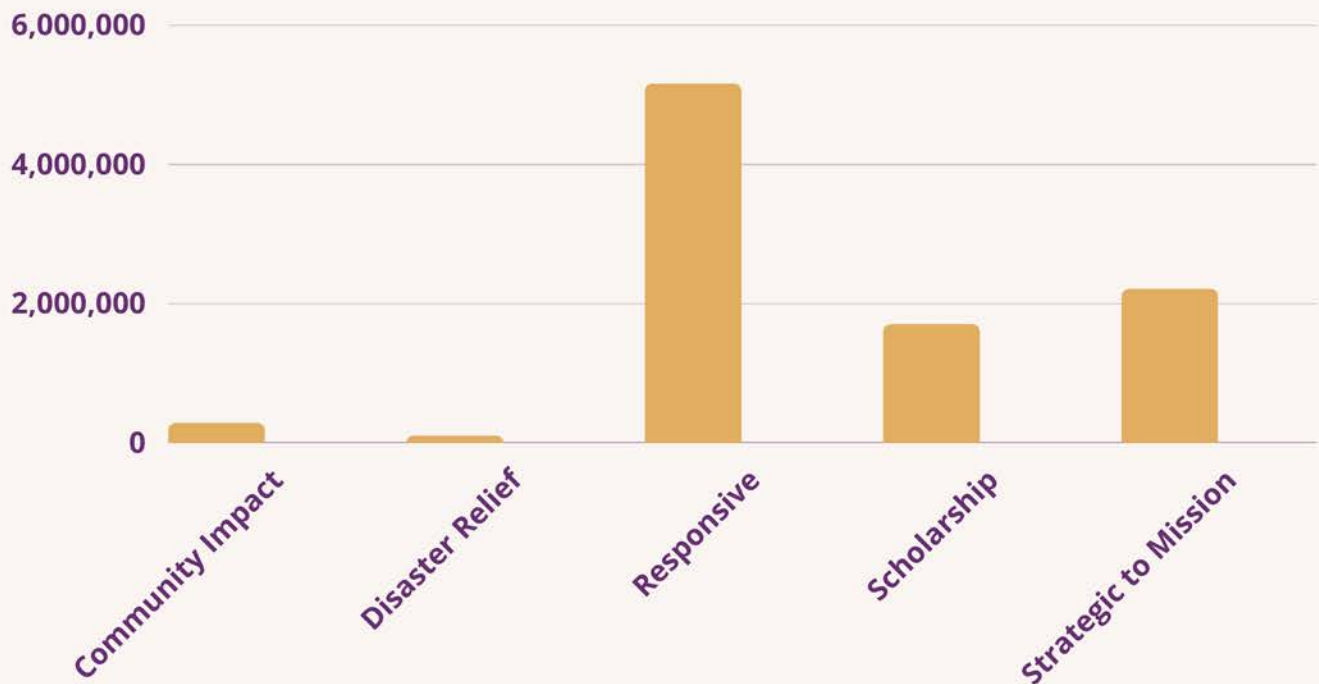

At age twelve, Rebecca was approached by Make-A-Wish Foundation, a nonprofit that grants "wishes" to critically ill children. Unlike the usual requests for celebrity visits or vacations, Rebecca's wish was to sit down with a medical philanthropist to help her start a charity for other children with pancreatitis. That charity was named Rebecca's Wish. Now in its 5th year, it has raised over \$3 million, trained five pediatric endoscopists, and helped countless patients and their families with hospital living costs.

Last summer, Rebecca's Wish partnered with the National Pancreas Foundation to start the first-ever summer camp for children suffering from pediatric pancreatitis. This was the first camp many of the children could attend, due to their medical needs. They had round-the-clock care from nurses and physicians familiar with their needs, and counselors who had had their own experiences with pediatric pancreatitis, including Rebecca.

Rebecca's Wish is just getting started. Rebecca's hopes for the organization's future include training more medical specialists, helping patients receive the care they need for secondary illnesses, and improving mental and emotional health of patients.
